## SUMMARY

Senior Frontend Developer with 10+ years of experience building scalable, data-driven web applications using React and modern JavaScript frameworks. Strong expertise in frontend architecture, real-time data visualization, API integration, and performance optimization within cloud-based environments. Experienced in developing secure, responsive, and high-performance web platforms.

---

## SKILLS

**Front-end:** React, TypeScript, JavaScript (ES6+), Redux, HTML5, CSS3

**Back-end:** Node.js, Express.js, PHP, WordPress

**Databases & Tools:** PostgreSQL, MongoDB, MySQL

**Cloud & DevOps:** AWS, Docker, Nginx, Linux

---

## EXPERIENCE

### Senior Frontend Developer

#### Nordic Analytics

August 2023 – Present, Remote

- Design and develop advanced web-based user interfaces using React, TypeScript, and modern JavaScript frameworks.
- Build real-time dashboards and interactive data visualization components for portfolio and financial data presentation.
- Integrate frontend applications with REST APIs and secure authentication systems in containerized cloud environments.
- Optimize performance, accessibility, and responsive behavior while maintaining scalable component architecture.

### Senior Full Stack Developer

#### Mastergram Advertising LLC

September 2018 – August 2023, Dubai, UAE

- Developed and maintained responsive web applications using WordPress, React, and modern JavaScript frameworks with primary focus on frontend development.
- Built dynamic user interfaces and integrated client-side components with REST APIs and database systems.
- Implemented performance optimization and code quality improvements to enhance stability and maintainability.
- Supported backend functionality using PHP and Node.js and managed Linux-based production deployments.

### Full Stack Software Engineer (Co-founder)

#### Voltroid Software Solutions

October 2015 – July 2018, Kerala, India

- Designed and developed web applications using PHP and WordPress, implementing frontend interfaces and backend functionality.
- Built and customized WordPress themes and plugins ensuring responsive design and cross-browser compatibility.
- Integrated databases and REST-based services to support scalable web platforms.
- Managed deployment and maintenance in Linux-based hosting environments.

---

## EDUCATION

---

### **Master of Business Administration (MBA) - General**

Pondicherry University • Puducherry, India • 2018

### **Bachelor of Technology (B.Tech) - Computer Science and Engineering**

University of Calicut • Kerala, India • 2015

### **Higher Secondary - Computer Science**

Sharjah Indian School • Sharjah, UAE • 2010

---

## PROJECTS

---

### **Obsidian Fund – Portfolio and NAV Monitoring Platform**

Nordic Analytics • September 2025 – Present

- Developed React-based dashboards for portfolio monitoring and net asset value (NAV) visualization.
- Built interactive charting systems for real-time financial data presentation using TypeScript.
- Integrated secure authentication flows and REST API communication within containerized microservice architecture.

### **TraderVoice - AI-powered Financial Analytics Platform**

Nordic Analytics • August 2023 – September 2025

- Designed and developed a data-driven web platform using React and TypeScript for interactive analytics and trend visualization.
- Implemented real-time data visualization components with optimized state management for high-frequency updates.
- Integrated frontend applications with backend APIs, PostgreSQL databases, and secure authentication systems.

### **Customer Relationship & Inventory Management Application**

Mastergram Advertising LLC • February 2022 – September 2022

- Developed a React-based inventory and CRM management system for internal operations.
- Implemented REST API integration and structured state management for scalable data handling.
- Optimized frontend performance and UI responsiveness for enterprise-level usage.

### **Fully customizable eCommerce Platform**

Mastergram Advertising LLC • May 2021 – July 2021

- Developed a customizable eCommerce platform using React and WooCommerce integration.
- Implemented real-time pricing logic and dynamic UI rendering based on user-selected configurations.
- Built custom WordPress plugins and optimized frontend performance for responsive user experience.
